

This is to advise that an email just went out to all referees for the YSSL that they must see a physical coaching pass **that is not expired** at check in from any coach of your team that will be on the player's side of the field during the game. If your coach does not show them a physical pass then they will be kindly asked to move to the spectator's side of the field.

If no coach for your team is present with a valid physical coaching pass within 15 minutes of the scheduled game start, then the game will not be played and will be entered as a forfeit by the league.

The league has removed the option for mobile passes. It **MUST** be a physical pass like one of the two options below.

1) YSSL plastic pass printed by the league

2) YSSL USYS paper pass printed by team and laminated (*USYS passes from another league are not accepted*)

To ensure none of your games are missed/forfeited because of an invalid coach we advise you to reach out to every coach within your club and verify that they have a current YSSL physical pass and advise them that they will be **required** to show it to the referee at check in for each and every game.

Once you have checked, if any are missing or expired then please send an email to Patty at ysslpatty@gmail.com with the list of coaches (first & last name) along with to whom and where the printed passes can be mailed. She will verify they have all required information and either print new ones and mail them or advise what is missing. Please do not just email her

asking if all of your coaches are fine, verify first with the coaches and then reach out.

Thank you for your assistance in making this a great soccer season.
