

Game Change Reminders & Updates

- Reminder: The team that needs the game changed is the team that needs to enter the game change in the system. That way they are the ones using the free change or paying for the late change.
- Reminder: If you are entering a game change today and the new game date is less than 5 days from today, this is a late change and the person requesting the change MUST pay the \$75 fee via credit card or PayPal to change the game.
- Reminder: If you are entering a game change today and the game is currently scheduled for a date within 5 days, but now you want to change the game to a date outside that 5 days, this is a late change and the person requesting the change MUST pay the \$75 fee via credit card or PayPal to change the game.
- *****New Updated:** If you are entering a game change today and the new game date is less than 24 hours from today, this is a very late change and the person requesting the change MUST pay the **\$150 fee** via credit card or PayPal to change the game. (**Make sure you really want this change.**)
- *****New Updated:** Clubs will no longer be able to change a game within 4 hours of the currently scheduled game time.
- Reminder: Clubs currently have until 8/19/22 to make unlimited games changes to their schedule (date/time/field) for free.
- Reminder: After 8/19/22 each game change Date/Time will take away one of the team's **two free** game changes. A team cannot use a free game change to cover a late or very late game change. (Meaning: a game change less than 5 days must be paid for and you cannot use a free game change.)
- Reminder: The last date to submit a game change and use one of your team's two free game changes is 10/23/22. After that date all changes, late or not will incur a \$75 late change fee. The very late changes within 24 hours will still incur the \$150 fee.
- *****New Updated:** The YSSL is no longer allowing free changes for conflicts incurred by clubs participating in IYSA Cup games (State Cup, President's Cup, Illinois Cup, or Junior Cup). This is a tournament that the club has chosen to participate in and will be treated accordingly.
- *****New Updated:** A game that is Rained Out and not rescheduled within 14 days, will incur a \$75 fee to reschedule the game change outside that timeframe.
